

Cybersecurity Analyst and Port Agent driven by an engineer's mindset for securing complex operations with precision and speed.

WORK EXPERIENCE

- Facilitated communication between Vessel Masters, local port authorities, and third-party vendors to ensure 100% on-time arrival and departure performance
- Managed critical maritime documentation via the **Maritime Data Platform**, maintaining a zero-error rate in federal and local regulatory filings.
- Streamlined complex logistical data entry and manifest auditing, ensuring accurate reporting for customs and border protection agencies.
- Supported 20+ daily flights with **baggage handling, marshaling, and loading ops.** across
- Completed aircraft and equipment inspections with 100% and
- **R** through coordination with flight, gate, and maintenance teams.
- Developed AWS CLI automation tools in Java that reduced incident response time by 40% by
- Managed and deployed AMI/HM instances across 31 regions, ensuring for millions of daily transactions. and
- Led root-cause analysis (RCA) on critical incidents using to identify patterns, minimize MTTR, and
- Shipped 4 critical UI components in React.js + TypeScript for the AWS Console, for cloud administrators managing complex enviroment.
- Performed 20+ code reviews while upholding 90%+ test coverage on all team deliverables.

SKILLS

Linux, Windows, RCAs, SIEM, SOAR, Wireshark, Nmap
Active Directory, IAM (Least Privilege), SSO/MFA Integration, Zero-Trust Architecture
: Git, APIs, Python, Java, JavaScript, TypeScript, SQL
: CI/CD, React.js, Node.js, Web Application Security

CERTIFICATIONS

PROJECTS

- Dec 2025 - Present
- Built a multi-threaded TCP Port Scanner in python capable of scanning 1,000 ports in under 5 seconds.
- Implemented socket programming to perform fast TCP connection attempts and determine port status.

EDUCATION

Cybersecurity Program
Boston, MA
Nov 2025 - Mar 2026

Software Engineer Program Boston, MA
Dec 2021 - Jun 2022

Bachelor of Arts in General Studies of Physical Science
Boston, MA
Aug 2017 - May 2022
